

Immunization Criteria

To complete the Immunization “focus area” this year you must complete two of the following criteria.

1. Submit the annual kindergarten immunization report by November 30 (same date each year).
2. Distribute information about the *Vaccines for Children* (VFC) Program in kindergarten registration packets or throughout your school.
3. Have a staff member attend training for monitoring compliance with immunization requirements.
4. Sign your school up to use the Utah Statewide Immunization Information System (USIIS) to track immunization compliance.
5. Complete another project, which the Utah Immunization Program has approved.

When your school chooses to focus on immunizations for this year, drop us a line! Let the Utah Immunization Program know. They're available to help you in any way you need. Contact:
